

## Steam locomotive 85 002, DRG

73110 | DRG

railway company: DRG

439,90€

Steam locomotive 85 002 of the German State Railway Company (DRG).

Edition model!

- Photographic paint
- Finely detailed model with many separately attached plug-in parts
- Fine metal wheelsets

Two-light headlight signal, changes according to driving direction (the red tail light function is only possible in combination with a PluX22 function decoder).

In total, only 10 models of this approximately 133 tonne tender locomotive were build for use on the so-called Höllentalbahn. The class 85 locomotives were therefore the heaviest tender locomotives used in Germany. Due to their traction force, these beefy looking tender locomotives were soon being operated on mountain lines.

The photographic paint is an unique paint applied by locomotive factories on special locomotives to achieve a better quality of photographs at that time. It consisted of washable (lime) paint and was only applied for photographic work.

## General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	5
Number of axles with traction tyres	1
Article number	73110
EAN	9005033731106
Scale	H0
Epoch	II
Railway Company	DRG

## Electrical

Motor	5-pole motor
Head light	Direction dependent dual headlights
LED head light	yes
Control	DC Analog
Interface	Electrical interface for traction units PluX22

## Measurements

Length over buffer	187 mm
