Electric locomotive 9902 of Railexperts.

- Model exclusively available at ROCO
- Each side wall features a different design
- Pantographs with innovative fastening
- With many separately attached plug-in parts, in part using etching technology
- Individually switchable headlight or tail light and driver's cab lighting in digital mode

Created together with ROCO, an electric locomotive of the 1600 series shines with an eye-catching design. An attractive ambassador locomotive has been designed featuring the "Tommie and Tess" children's books. Charming motifs from these popular books decorate the sides of the locomotive and make it an absolute must-have for every collector.

About the 9902:

Locomotive 9902 was delivered to the Netherlands State Railways in 1981 as the 1616. When passenger and freight transport were separated, the locomotive was assigned to the NS Cargo freight transport division. NS Cargo was later taken over by DB-Cargo. In 2020, the last locomotives of the 1600 class were taken out of service at DB Cargo. The last six existing locomotives were sold to RXP Tracte B.V., an asset company of the Railexperts Group. With a nod to the already existing ex Locon 9901, the 1616 was re-designated the 9902. The locomotive is used for the company's own transport and is also hired out to other railway transport companies.

Railexperts is a provider of passenger and freight transport services. It tractions special passenger trains and performs locomotive and railcar transfers for third parties as well as last-mile services in freight transport. The services also include certification test runs and a 24/7 control centre that monitors transport operations for different rail transport companies.

About the book:

Grandma Toos is going on holiday and Tommie and Tess are invited to come along! They take a train into the mountains of Austria. What adventures will they have? Take a look and see what they experience when travelling abroad by train.

General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	4
Number of axles with traction tyres	1
Article number	7510089
EAN	9005033068561
Scale	H0
Epoch	VI
Railway Company	EINSTELLER

Electrical

Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Decoder-Type	MS450P22
Sound	yes
Buffer capacitor	yes
Interior lighting	Yes, LED, Digital switchable, Driver's cab lighting
Control	DC Digital
Interface	Electrical interface for traction units PluX22
Digital decoder	PluX22

Measurements

Length over buffer

201 mm
