Electric multiple unit V 466 “De Karel” of the Karel Foundation.

- For each model sold, a donation goes to the Karel Foundation
- Delicately crafted prototypical current collectors
- Interior lighting fitted as standard ex works, can only be switched in digital mode
- Model in finely-detailed design with many separately attached plug-in parts
- Design by Jesse van de Meulen

The mission of the “De Karel” Foundation is to preserve industrial heritage with a focus on historical railway material. This would not only be done through maintenance, but also through operation. Operation of the train means it is visibly preserved for Dutch culture.
